LOS ANGELES 17

Dear Nestor;

I hope this note finds you well and still in the country. My last letter was returned as I had apparently put a wrong address on the envelope so I'm sending this to the school. How is your family effected by this recent turmoil? Not to badly I hope!

Things are much the same here I'm still doing windows in this damn store and attending night classes at City College rather than Chouinard's as I can better afford it.

The moving bug must have bit me early in life as I am still living a sort of transit life moving every month or two around this City of (unhappy angels) who can't see for the smog. I am now not far from Dick Fisher's old place on West Knoll Dr. the address is 921 Westbourne Dr. W. Hollywood 46. If you should find time to write befor I move or something. I rather like my new place as its close enough to Farmers Market where I can get all the Breads and cheeses un~~available~~ unavailable in any other part of the City and I can ride to work with my boss in the morning. I'm going to Immaculate Heart College tonight as Sister Carita has a sale of student Serenographs. which are often times good and quite reasonable.

There was a wonderful exibition of Van Gogh's here on tour recently which you shouldn't miss if you haven't already seen them. It was the first I'd seen and was most impressed by his fantastic colour sense and brush stroke. All of which have bedden in the God awfed prints on the Market. I have also become quite interested in Ben Shawn and Paul Klee for design. what do you think of them? I went to see Ballet Rouse last eve and have decided they are the Worlds worst. You don't care for the Ballet do you? I guess that was Andrew who loved it so.

Do write and fill all the gaps of the last few months as this upheval has bothered Me for some time and your family, What will happen to them?

All my regards to Pongie

Always your friend

HB

P.S. use this address as the store opens all mail

921 Westbourne Dr.
