Dear Nestor:

I hope this note finds you well and still in the country. My last letter was returned as I had apparently put a wrong address on the envelope so I'm sending this to the school, How is your family effected by this recent turmoil? Not too badly I hope!

Things are much the same here I'm still doing windows in this damn store and attending night classes at City College rather than Chaucer's as I can better afford it.

The moving bug must have bit me early in life as I am still living a sort of transient life moving every month or two around this city of (unhappy angels) who can't see for the smog. I am now not far from Dick Pisher's old place on West Knoll Dr. the address is 921 Westbourne Dr. W. Hollywood 46. If you should find time to write before I move or something, I rather like my new place as its close enough to Farmers Market where I can get all the Breads and cheeses ~~unavailable~~ ^{unavailable} in any other part of the city and I can ride to work with my boys in the morning. I'm going to Immaculate Heart College tonight as Sister Caritta has a sale of student serigraphs. which are often times good and quite reasonable.

There was a wonderful exhibition of Van Gogh's here on tour recently which you shouldn't miss if you haven't already seen them. It was the first I'd seen and was most impressed by his fantastic colour sense and brush stroke. All of which are bedden in the God awful prints on the Market. I have also become quite interested in Ben Shwan and Paul Klee for design. what do you think of them? I want to see Ballet Rouse. Last car and have decided they are the worlds worst. You don't care for the Ballet do you? I guess that was Andreu who loved it so.

Do write and fill all the gaps of the last few months as this appraisal has bothered Me for some time and your fondly, what will happen to them?

All my regards to Pomie
Always your friend
