Dear Sir,

We confirm the receipt of your kind letter dated on January 29th., 1962 the content of which has been noted by us with a great interest.

First of all we would like to wish you best successes on the field of your new activity.

With regard to Mr. Kawalerowicz we regret very much indeed that we have to inform you that our famous film-director is very busy and therefore he cannot pay a visit in your nice country.

We have noted very carefully your information about your experimental short entitled "PEOPLE AT THE BEACH". Before asking you to supply us with a print of this film, please let us know some detailed information about this film/synopsis, several stills etc./. We hope to hear from you on this matter very soon.

As you are a close collaborator of Cuban Television, we would appreciate very high your kind information on the possibility to exhibit Polish short by means of your TV. If possible - let us have exact address of the foreign department of Cuban TV, which department is selling and buying films for TV.

In the meantime, we remain

with best regards

Yours sincerely
